

MAE Praxair Seminar

Library Resources Supporting Research and Academic Activities in Mechanical & Aerospace Engineering

Nancy A. Schiller

Engineering Librarian, Arts and Sciences Libraries
Co-Director, National Center for Case Study Teaching in Science
University at Buffalo
schiller@buffalo.edu

Abstract

This seminar will introduce students to the resources available from the University at Buffalo Libraries in support of research activities in mechanical and aerospace engineering. Specific emphasis will be placed on discussing the availability and usage of electronic resources for research including electronic engineering handbooks, research and citation databases, and electronic journals. Time permitting, an overview of EndNote, a software tool for bibliographic reference management, will be presented.

Bio

Nancy Schiller is a Full Librarian in the Science & Engineering Library at the University at Buffalo and Co-Director of the National Center for Case Study Teaching in Science (NCCSTS). As the engineering subject specialist at UB, she assists students, faculty and staff in the School of Engineering and Applied Sciences with their teaching and research. As Co-Director of the NCCSTS, she oversees a variety of activities aimed at promoting the use of case studies in the teaching of undergraduate science. Her work in this area has been funded by the National Science Foundation and the Pew Charitable Trusts. In 1997, she received the SUNY Chancellor's Award for Excellence in Librarianship. Her B.A. is from the University of Illinois at Urbana Champaign and her M.S. in Library Science from Columbia University.
